

BE SEEN...

AND HEARD!

It's time to take your business to a new level.

We can help create an immersive space for meetings, presentations, trainings and conferences. Let us equip your office with a standard suite of collaborative technologies where client and employee interactions come to life.

VoIP

- Ensure everyone can be clearly heard, making meetings shorter and more productive
- Deliver 360° microphone pickup and other group voice capabilities
- Boost meeting productivity in an affordable and effective way

Video Conferencing

- On-site meetings can reach far corners from around the world
- Provide a level of communication in a way email or instant message can't
- Most systems require no specialized training

Document Camera

- Ideal for visual learners
- Saves cost by avoiding printing several copies of the same document
- Display content from your mobile devices, record lessons for viewing at a later time, and give your audience a more interactive learning experience

BE **SEEN...**
AND **HEARD!**

Digital Signage

- Inform your audience of upcoming activities, meeting agendas and other key benefits of their attendance
- HD Video sharing
- Cutting-edge, vibrant displays for a more impactful form of communication

Projector System

- Quick plug and play interfaces for impromptu presentations
- Display true-to-life images with exceptional brightness contrast and color accuracy
- Low total cost of ownership with energy-saving features

Networking

- Share internet connection amongst varied devices and audience members
- Clients can share resources in real time

Reinforced Audio

- Rich audio reproduction for clear communication and comprehension
- Ease-of-use from desks to executive suites to large-scale conference rooms
- Noise-cancelling mics deliver outstanding audio so focus can remain on the speaker

Presentation Accessories

- Wireless Remotes with an integrated laser pointer allows the presenter to highlight important content
- Tablet/Notebook Docks are easy to carry from room to room and feature special function keys to better navigate through media
