WHEREVER BUSINESS HAPPENS, LASTPASS & GOTO ARE THERE

SECURE ACCESS AND POWERFUL COLLABORATION FOR YOUR EMPLOYEES

LastPass •••|

❋ GoToMeeting

Current events demand IT leaders ensure they're ready to support long-term remote work and keep their organizations running and driving growth. This extends beyond meetings and includes providing remote teams with access to sensitive business apps. LastPass and GoToMeeting work together to keep your remote workforce productive and secure from anywhere.

Secure Every Employee Login, No Matter Where the Team is Working

LastPass Identity empowers employees to securely work from anywhere through integrated single sign-on, password management and multifactor authentication. This means your business can mitigate risk, all while improving employee productivity.

Best of all, LastPass integrates with GoToMeeting through single sign-on, enabling IT to manage employee access in one unified view. Secure your remote workforce with all-in-one identity and access management.

Single Sign-On
- 1,200 single sign-on applications
- Flexible access policies
- One click sign-in for employees

Password Management
- Vault for every user
- 100+ customizable security policies
- Federated login integrations

Multifactor Authentication
- Additional security for every login
- Fingerprint and facial biometrics
- Support single sign-on apps, workstation and VPN

Get Award-Winning Collaboration and Security with One Company

GoToMeeting and LastPass are owned exclusively by LogMeIn which greatly simplifies your vendor management. LogMeIn is uniquely positioned to empower people and businesses to do their best work simply and securely: whenever, however, and most importantly wherever.
