

What Does Your Full Microsoft Solution Look Like?

 Microsoft Surface

 Microsoft 365

Flexible and immersive for every generation.

That's what Microsoft Surface with Microsoft 365 delivers — a full solution. However, everyone needs a different level of flexibility and not one person becomes immersed in the same way as another. That's why Microsoft has designed their products and solutions to be personalized for everyone's own unique experience.

Teach smart.

Choose your own adaptive accessories with our new easy to use 3D printing system for mouse, keyboard, and more. Then further your experience with **Microsoft Office**, harnessing tools like **Microsoft Teams** that enable intuitive learning anywhere.

Every full Microsoft solution tells a different story. Start telling your own today by contacting us at

Get creative.

Take artistry further with a **Surface Slim Pen 2** that works with many apps like **OneNote** that feels like writing and drawing on paper. Your personal canvas has an edge to edge 13" display with storage options starting at 256gb.

The heavy impact of our light design.

The Surface has an ultra-portable design that starts at just 1.94 pounds and is made with sustainable materials that meet ENERGY STAR® requirements while being Registered EPEAT® Gold in the US and Canada.

Work hard.

Powerful all-day productivity with long-lasting battery life, paired with **Windows 11 Security** and **OneDrive** cloud, so you're never interrupted and never lose your **Microsoft Word, Excel, or PowerPoint** documents again.

Did You Know?

The Surface's Gorilla® Glass 5 screen can withstand 1-to-2-meter drops on hard surfaces and your Surface includes a 1-year warranty.
